

This charcoal 18x14 screen is a traditional choice for patio and pool enclosures. Pool & Patio Screen was designed for applications where extra strength is desired.

**PHIFER**  
INCORPORATED

An 18 x 14 mesh screen has 18 rectangles per inch horizontally and 14 rectangles stacked vertically to make up an inch. The mesh size refers to the density of the screen mesh, which is measured by the number of openings per square inch.

CRAFTING ALUMINUM SOLUTIONS WITH PRECISION AND PASSION SINCE 1977

- .013" Yarn Diameter
- .017 Fabric Thickness (Inch)
- 58% Openness
- 154 psi Light Transmission Burst Strength
